

Print-Rite Received the 2009 Hong Kong Awards for Industries: Productivity and Quality

Print-Rite Holdings Ltd is proud to announce that it received the 2009 Hong Kong Awards for Industries: Productivity and Quality. The Awards, being the most coveted honors bestowed upon Hong Kong-based enterprises, recognize the outstanding achievements of Hong Kong enterprises in their move towards higher technology and higher value-added activities.

"Print-Rite's management believes that innovation is the key to the enhancement of productivity. The organization's capabilities for developing innovative technique and products have been widely recognized in the industry," the Judging Panel commented.

Mr Arnald Ho, Chairman of Print-Rite Holdings Ltd, says: "The key to have high productivity and good quality is the seamless integration of various business functions. Based on the market, brand name and knowledge management as the business direction, Print-Rite, using technological innovation as core competence, continuously improves its processes in green production and provides reliable services through integrated logistics management." He also says: "Protect the environment should be a life-long mission for everyone."

In the worldwide printer consumables industry, Print-Rite has long been recognized as one of the true leaders. With more than a decade of remanufacturing experience, the company has invested its time and resources heavily in developing its own state-of-the-art equipment, assembly lines, and production procedures. Print-Rite's award-winning manufacturing processes have given it the competitive edge in terms of being first to market with new products as well as providing the company with the means to market one of the broadest product portfolios in the industry. While the company offers a comprehensive line of products that number in the thousands, it has never sacrificed quality. The company's products always meet or exceed the OEM's equivalent consumables.
