

## The World's First in the Printer Consumables Industry to receive IECQ HSPM QC 080000 Certificate

PRINT-RITE Group is pleased to announce that our manufacturing site in Zhuhai, China has been certified to IECQ HSPM QC 080000. It is the world's first manufacturer in the printer consumables industry to achieve such certification. The certification ceremony and the press conference were held on 17 April 2009 in Zhuhai, China.

IECQ HSPM QC 080000, based on the EIA/ECCB Standard 954 Electrical and Electronic Components and Products Hazardous Substance Free Standard and Requirements, provides the framework for the comprehensive, systematic and transparent management and control of processes pursuant to Hazardous Substance Free (HSF) products and production processes. An organization that has been certified to QC 080000 can demonstrate that it has established an effective management system to control and manage hazardous substances in order to comply with the requirements of EU RoHS, REACH and other product safety regulations.

PRINT-RITE always follows closely and pursues to attain compliance with world's top standards relating to quality, product safety and sustainability. We were a pioneer in the printer consumables industry in implementing green and product safety management standards through the certification of ISO 9001 and ISO 14001 in 1998 and 2000 respectively. The recent achievement of the QC 080000 certification by our manufacturing site shows our commitment to environmental protection and control of HSF products.
